2026 P6 Science (Pre-PSLE) 24 Nov-28 Nov + 1 Dec-5 Dec (Mon-Fri)*2	9:00am-11:00am (Dr Li /Ms Jeaniei)	This is a pre-course for P6 Science, suitable for all P6(2026) students. P6 Science is very tight in terms of challenging in topics and time limitation. It is necessary to use the November holiday to complete the review and consolidation of P3-P5 knowledge and answering skills on MCQ and OEQ before P6 study. Free Extra practice and one session of Zoom Q&A will be provided after the programme, to enhance understanding and memory. Contents: 1) Review and consolidate the content of the main chapters of P3-P5, especially the chapters in physical science. 2) Introduce the answering skills used in P6, including the answering techniques of MCQ and OEQ. 3) Apply the above answering techniques to real PSLE questions, to experience the format and difficulty of PSLE questions, and to test the effectiveness of the answering techniques.	10	\$741.20
Q&A for the extra practice		27 Dec (Sat), 1pm-3pm, Online		

Course	Time	Course Topic	Total lessons	Fee (Incl. GST)
2026 P6 Math (H1) (Pre-PSLE) 24 Nov-28 Nov + 1 Dec-5 Dec (Mon-Fri)*2	11:15am-1:15pm (Dr Li /Ms Jeaniei)	This is a pre-course for P6 Math, suitable for P6(2026) students with a strong foundation in math (P5 SA2 $\geq$ 70). The questions involving Fraction/percentage are very challenging in P5 and will be even more difficult in P6. It is important to use the November holiday to complete the concept review and do more applications before P6 study in 2026. Additionally, in order to cooperate with the learning and mastering of some methods, we will learn 2 important topics: Ratio and Algebraic Equations in advance during the holiday to reduce the burden for P6. Free Extra practice and one session of Zoom Q&A will be provided after the programme, to enhance understanding and memory. Contents: 1) Review and consolidation of the concepts of Fraction/percentage; 2) Summarization of methods on the main types of questions, including BCA, PW and money type, 3) Introduction of ratio and algebraic concepts and their simple applications in advance.	10	\$741.20
